ROLL WITH IT

– by and for Canterbury Kids

Merrin School

Woke up one morning around half past four

My bed was shaking – so was the floor

We all huddled under the door

That was the first – but we've had thousands more

We just roll with it, roll with it, we just roll with it,

we rock and roll, rock and roll with it

Yaldhurst School *(instrumental)*

we've been learning lots and lots

about the Richter scale and aftershocks

what to do and where to go

if a shake begins – now we know

We just roll with it, roll with it, we just roll with it,

we rock and roll, rock and roll

Redcliffs School *(Bridge)*

mother nature – let us be

we've been awake since half past three

don't you think we've had enough

we'll see it through – BECAUSE WE'RE TOUGH

We just roll with it, roll with it, we just roll with it,

we rock and roll, rock and roll

Queenspark School

We're sick of being on the news

Liquefaction and portaloos

Broken buildings and the EQC

We remember how it used to be…

Everybody ***(quietly at first)***

Can we fix it? – yes we can!

Can we fix it? – yes we can!

Can we fix it? – yes we can!

Can we, can we, – CANTERBURY CAN!!!!!!

(instrumental)

We just roll with it, roll with it, we just roll with it,

we rock and roll, rock and roll -

we just roll with it, roll with it, we just roll with it,

we rock and roll, rock and roll with it
